Student Veterans of America 11th Annual National Conference Sponsor Guidelines & Regulations

On behalf of Student Veterans of America, thank you for your interest in supporting SVA's 11th Annual National Conference (NatCon), scheduled January 3 - 5 at Disney's Coronado Springs Resort in Orlando, Florida. SVA is the first and only veteran service organization of its kind, and is the only organization in higher education focused on delivering the advocacy, resources, programs, and research needed for veterans to succeed in higher education and beyond graduation. Since 2008, SVA has grown to over 1,500 chapters in 50 states and four countries.

This year, we are anticipating over 2,000 SVA chapter leaders, student veterans, chapter advisors, university staff, corporate partners, and friends of the organization who see the value in and support the growth and development of veterans in higher education to gather for our record-breaking conference.

Our objective is to ensure you receive the full benefits of your sponsorship at NatCon 2019 to allow you every opportunity to maximize the value of your participation and to enjoy the benefits of this event. If you have any questions or problems, please do not hesitate to reach out and contact:

- Darren Phelps: Vice President – darren.phelps@studentveterans.org – 202-223-4710

We hope you and your colleagues will find SVA's NatCon 2019 an invaluable experience. Please let us know how we can be of assistance to you in maximizing the exposure of your sponsorship and we look forward to your participation in this successful event.

Acceptable LOGO Formats for Ads/Signage

When sending logos to us, it is imperative that we have a high-resolution version to work with. The best and most flexible would be what is known as **vector art** as is produced in an .AI, .EPS, or CDR file from Adobe Illustrator or Corel Draw. Vector art can be scaled easily without any loss in quality or pixilation.

Alternatively, most people have art in what is known as a **bitmap format** that can be identified by the filename suffix such as: PSD, TIF, BMP, JPG, PNG, or a GIF. This format is size specific meaning that if it needs to be enlarged, it will normally break up if we're starting with a small sized file.

Logos or artwork grabbed off the internet will not work anywhere but the Internet, due to their low 72 dpi resolution. Most BMP, PNG or GIF files are of low resolution since they are usually used on the Internet to save space/download time.

In sending bitmap files, **SIZE MATTERS**. Under properties, you can check the file size. We look for a minimum of **300 dpi resolution**. If your logo file is over 1 MB in size, you'll normally be safe. 500 KB can also work, based on the application. On a 4 foot sign... it might be too small. As a logo on the back of a booklet, brochure or printed handout... 500 KB should work. Bigger is better. Look to send files as a JPG or TIF format.

CHECK IT YOURSELF: If you are not sure of the quality of what you have, insert it in a WORD document, blow it up to full page size and print it. If you love it... it will be fine. If not, get a HIGH RESOLUTION version from the person/department who keeps the originals of your graphic files.

Acceptable Ad Formats

The most widely acceptable format for most printers is Adobe PDF. When submitting files as PDF, you must output in the HIGH RESOLUTION mode. Adobe offers you a choice for smallest file size, several PDF 'x' standards and high resolution for PRE PRESS or

Student Veterans of America 11th Annual National Conference Sponsor Guidelines & Regulations

PRINTING. Use these latter two as your option. Do NOT optimize if offered a choice. **Do select 'preserve editing capability' if offered.** If you are converting original art files to PDF, be sure to print out your final PDF and check it for anything that might have dropped out in the conversion process. We cannot be responsible for components of ads that did not convert properly to PDF.

We also accept Corel Draw, Quark 8.0 (for PC), Adobe Illustrator and Adobe Photoshop files providing they are to the correct ad size. For color ads, please make sure they are in the CMYK color space so your ad will reproduce accurately. When sending ads in any of these formats, all of your fonts should be either embedded or converted to curves. When sending Quark, send the complete output folder including photos and fonts. (If you're using Quark, you'll understand.) *EPS versions of your ads can generally work, providing they are to size and have fonts as curves.*

File Compression: If you are going to compress your files prior to sending, we support ZIP compression only.

Conference Program Ad Sizes

Based on your Sponsorship Agreement, one of your many benefits is an ad in the NatCon 2019 Program Book.
